Quality

Exterior shutters can provide a dramatic change to the look of any building. We have installed thousands of exterior shutters and stand behind each one with a three year limited warranty.

We consistently enhance our manufacturing and installation processes. We even devised equipment to hide the assembly fasteners in our product. Our approach creates unique quality custom shutters, and a purchase experience unlike any other, every time. Combine all this with our dynamic line of custom hardware and a process that utilizes only the best and you have a DWL product that will be beautiful, durable and best of all, affordable.

From quote to installation you can rest assured, your shutter purchase will be completed to your satisfaction. At DWL *"The most important thing we build is our reputation."*

Design

Options

We have all the best options at DWL. Classic Board and Batten styles, Louvered style and both Raised and Inset Panel styles, in paint grade and rustic stain grade finishes. Each available with custom tops to match almost any window shape. Choose from the classic "Angel Wing" to the typical "Flat Top" or the in-between "Saloon Top". Add hardware for distinction and choose from 100+ colors.
